

**Brothers of Charity Services**  
working in partnership for positive lives in England

*Make the Most of Your Employee Benefits*

## Investment in Training and CPD

We provide a comprehensive training programme with both mandatory and additional courses. We deliver training in various different ways including classroom based, e-learning and distance learning programmes.

We provide Health and Social Care Apprenticeships, Level 2 or 3 to staff in direct support roles.

### The Start of Your Career Journey

The Care Certificate supports new staff with no experience in health and social care to gain the fundamental knowledge and competence required to deliver safe standards of care.

### Continue to Develop With Us

We support you to enhance your career through continued professional development.

We run a Management Development Programme for staff who want to progress their careers.

To find out more about the training available to you, please contact Julie Khan (Regional Head of Learning and Development).
