

Easter Crafts with Crafty Uniforms

1. Firstly, to create the body for your bunny, paint your toilet paper rolls white. You may need to do a few coats of paint to get them perfect.

2. Make the ears by tracing out an ear shape on white card, and then make a smaller ear shape with some coloured paper of your choice. Glue your coloured shape onto the white card and your ears are ready to go.

3. Glue two small googly eyes to your paper roll and watch your bunny start to come to life. Then twist three small pipe cleaners around each other and glue this down on the paper roll.

4. Glue a small pom pom on top of the pipe cleaners to create your nose.

5. Attach your ears to the inside of the top of your paper roll with glue. Next, draw on the mouth with a black felt tip pen.

6. Finally, give your bunny a name and enjoy!
